

## Invitation to join our Council

The Council of the Institute oversees the activities of the Institute in the same way that Directors of a Company are responsible for its activities.

There are several vacancies on our Council at present and we are inviting interested members to join us. Please note, to become a Member of Council, you must be a MICI or a FICI.

The Council meets every second month in Dublin but much of the work is done by email, so you don't have to live or work in Dublin to be on Council. Indeed, we have representatives from all over the country.

If you have an interest that you would like to contribute or develop, please volunteer your services. If you like, you can take ownership of just one specific task and make it your own. Alternatively, perhaps you'd like to see how we operate before deciding what to do—that's OK too! And remember, being on Council is not a life sentence. You have the opportunity of stepping down or continuing for another year every year, particularly at the AGM each April.

If you would like to talk to one of us about joining, let me know and we'll get back to you.

Thanking you on behalf of Council,

Ms Mary Mullaghy FICI  
Honorary Secretary
